RE: Records Request – Reynolds

Dear Mr. Roberts:

I write in response to your electronic mail message of February 18, 2016. With respect to your question of why the records were withheld in October 2015, it was the Town's position that disclosure would be contrary to the public interest. The Town does not wish to disclose the factors that it considered in taking that position.

We appreciate Ms. Reynolds' concerns about the missing records. I can confirm that the records she identified were not in the notebook that the Town received from the Seventh Judicial District Critical Incident Investigation Team (Investigative Report # 2015-94). In addition, I can confirm that the Town has never received the records that are missing from the Investigative Report. I expect that Ms. Reynolds may be able to obtain those records from the entities that prepared them.

Sincerely

David L. Masters
Town Attorney – Town of Olathe
